

## Clark Forklift Part

Clark Forklift Parts - Currently, there are over 350,000 Clark forklifts performing worldwide, and in excess of 250,000 in commission in North America alone. With five main lines across the globe, Clark is proud to be one of the most expansive corporations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift has 20 unique models of forklifts, with parts covering more than 120,000 particular items for all of its automated equipment. Your regional Clark Seller is your complete source for availability of all your parts requirements provided by Clark Totalift.

Clark's phenomenal Parts Distribution Facilities are conveniently stationed in Louisville, Kentucky, which serves both their customers and sellers in North America, and Changwon, South Korea, which handles their Asian dealers and customers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing manufacturers. Motivated to supply the highest level of value and service to our customers, Clark remains on the leading edge when it comes to improving efficiency and benefiting performance.

Globally, Clark has one of the most impressive supplier support networks. With over 550 locations worldwide, supplier representation in over 80 nations and 230 locations in North America, their high level of dedication to their customers predominates the material handling market.

By pioneering the operator restraint system protection feature, Clark proudly remains a leader of refinement in the industrial equipment and automated forklift industry. This exceptional commitment to safety is at this time a standard feature on every forklift.

Clark has a continual objective to possess the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be globally certified with quality standard ISO 9001 in all of its manufacturing plants. Furthermore, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be ready for any number of environmental restrictions, thus placing them in a prevailing industry position.

Clark has selected the system of "Lean Production" at all of its assembly facilities because this system is particularly economical and permits minimal use of resources. Developed to guarantee maximum proficiency, this system is intended to find and acknowledge the most effective ways for manufacturing plant stewardship. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers join together to enhance the efficiency and brilliance of their merchandise while minimizing expenses. The new value engineering agenda combines innovative product growth and offers superior client support and service within the industry.
