

## Meritor Part

Meritor Parts - Meritor is a premier global dealer that is proudly founded on a 100 year custom of service and quality. They concentrate on several modules, integrated systems and parts to original machinery makers and the aftermarket for the transportation and industrial sectors.

Meritor values the wishes of their clients to guarantee their success while priding itself in the company's unique energy and thinks this output of energy to be their competitive advantage in their worldwide operations. Meritor starts with a culture that values diversity of individuals and their broad thought processes. Operating in 19 countries and employing over 11,200 individuals, Meritor promotes innovation and collaboration amongst a team of experienced experts.

Meritor strongly believes in just employing future focused employees. These top-caliber workers can quickly get used to to changing surroundings and freely exhibit the level of performance and commitment needed so as to attain results for the competitive market environment. The company empowers their teams to make sound business decisions to be able to improve the overall success of the business. In return, Meritor provides all their workers different opportunities for professional and personal development.

The Advanced Engineering team is on the forefront of systems engineering and components. This consists of axles, drivelines, braking and suspension systems for heavy duty and medium trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is developing. They opened a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives that represent the whole Asia Pacific region. This particular team is likewise responsible for supporting the requirements of their global engineering staff.

Meritor's customer focused and dynamic Quality team is devoted to ensuring optimum processing at their aftermarket distribution facilities and production plants which are situated around the world in 19 nations and in 5 different continents.

They have their supplier network which is specifically situated so as to support the development of the business. Each regional team has internationally supported initiatives, quality systems and centralized in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program promotes a data-driven, fact-based approach to decision making in each aspect of the trade. The DFSS or also known as Design for Six Sigma ensures product reliability in each and every region. The team is even comprised of transactional Green Belts who apply Six Sigma tools to business processes and implement lean techniques.
